

# ControlSpace® Remote v2.3.1

## Release Notes

08 Oct 2018

Revision: 1.0

### General

This release of ControlSpace Remote software adds the support for the following new features:

- Support for ESP-880A/880AD/1240A/1240AD
- Updated Help Files

### Defects Fixed in this release

- Fixed several visual artifacts in CSR Builder.
- Fixed visual issues when dragging around the Color Picker.
- Fixed issue where frames were being layered above panel links which prevented the links from working.
